

Sebastian Weidlich

Senior Flutter Developer · Product, Development, Release

● Available from October 2026 · Berlin & remote

sebastian@weidlich.dev · [+49 15204849999](tel:+4915204849999) · Berlin, Germany · weidlich.dev · [LinkedIn](#)

Senior Flutter developer (10+ years in software development) with a backend background (Firebase, .NET). At Appsfactory: one of three tech leads for a 40-person full-stack team; client projects for Vattenfall, Deutsche Bahn and Porsche. Co-founder and CTO of Kiezpass UG, sold in 2025. Freelancing since 2021; six apps shipped to the App Store and Google Play since then, as a freelancer and co-founder. Available – in Berlin or remote.

01 EXPERIENCE

2021 – Present

Freelance

- Designed, built and published apps on the App Store and Google Play – for clients and as my own products.
- Full-stack with Flutter and Firebase, including backend, CI/CD and release management.
- Clients include Megunto (e-learning/medicine) and Twiggli (events platform).

2024 – 2025
company sold

Co-founder & CTO, Kiezpass UG

- As co-founder, owned product, design, development and release of the voucher app – from the initial idea to the sale of the company.
- iOS, Android and web with Flutter and Firebase, including the backend and a web-based CMS for partner businesses.
- 500+ users, 4/5 store rating.

STORE [Google Play](#)

2019 – 2021

Tech Lead, Appsfactory GmbH

- Coordinated a full-stack team of 40 developers as one of three tech leads.
- Designed software architectures and conducted code reviews across multiple client projects.
- Established development guidelines and best practices and embedded them in the team's daily work.
- Led team meetings and organized knowledge transfer between projects.

2014 – 2019

Full-Stack Developer, Appsfactory GmbH

- Planned and delivered projects in agile teams.
- Developed backend solutions with .NET and Microsoft Azure.
- Clients: Vattenfall, Deutsche Bahn, Porsche, Swiss Re, Lidl, Bayer 04 Leverkusen, Burda Verlag, GU Verlag
